

RENESSEN PACKAGES PVT LTD

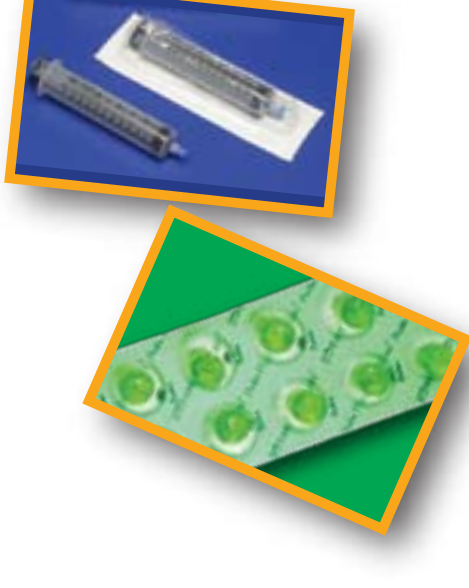

A Positive Solution

Manufacturers of Blister, Alu Alu, Machine Change Parts. Blister Packing, formfill Seal & Packaging Machines. We also develop import substitutes as required.

Flat-bed machine for thermo-formed and cold-formed blister packs, most suitable for clinical trials and short-run batches for pharmaceutical, cosmetic, food and engineering products.

SMART-BLIS

Salient features:

- Pneumatic-driven stations controlled by full-function high speed PLC.
- User friendly MMI with recipe settings and product library functions for quick change over.
- Stainless Steel cladding conforming to cGMP standards.

Optional features:

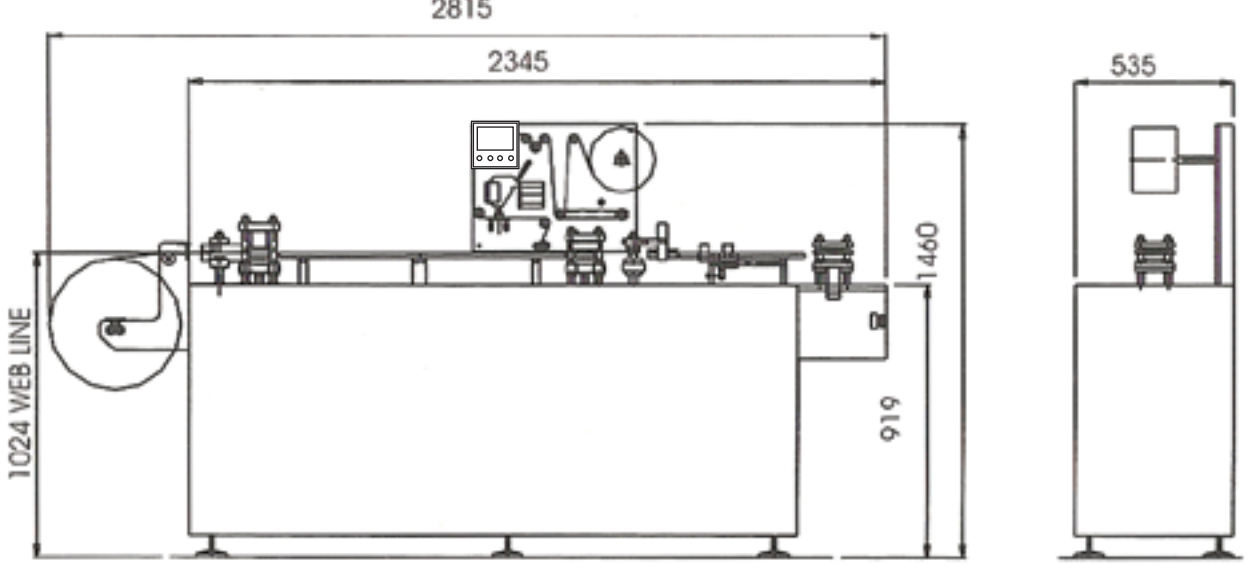

- Embossing
- Perforation
- Printing System
- Acrylic / Polycarbonate guards.

* It is recommended that the machine is installed in Air-Conditioned premises having room temperature of 22° C to 26° C to ensure efficient working.

Technical Specifications:

Packing Material	Format Range
Base Film: PVC, PVC with PE/PVdC, ACLAR, COC, PET, PP, Tri-laminated alu.	Max. format area - 88 mm X 140 mm Max. base foil width - 148 mm Max. lidding foil width - 148 mm Max. forming depth - 12 mm
Lidding Foil: Heat sealable aluminium or paper	
Utilities:	
Compressed air requirement: 350 lpm	
Cooling water requirement: 120 litre/hour at 14°C (base film dependent)	
Machine speed: 25 strokes per minute for thermo formed blisters. 20 strokes per minute for cold formed blisters.	

Shipping dimensions for basic machine	
L X W X H	: 117" X 48" X 72"
Net Wt.	: 850 kg
Gross Wt.	: 1200 kg

NOTE: Specifications are indicative and we reserve the right to modify them without prior notice. Accessories shown in the picture are not part of standard equipment.

INFRASTRUCTURAL FACILITY

Electronic Wire Cutting Machine

WMW Horizontal Boring Machine

Deckel Jigmill

CNC Turning Centre

Mazak Vertical Machining Centre

Conventional Lathe Machine

QC Department

Haas Vertical Machining Centre

Our team of dedicated Service Engineers and Technicians.
